The little details make all the difference. The arc of the curvature, the ratio between circumference and length. Little variations that bring life to a design. So it is with Tippy, the small, jaunty wall light by Bønnelycke MDD, designed to have an almost vivacious quality to it. Inspired by the thimble, the designer developed a homogeneous design that exudes functionality and simplicity. The finish, the ability to create a contrast between the bracket and fittings, and the integrated on/off and dimmer function which is built into the wall bracket in a graphic, elegant way are what make Tippy utterly unique.
