Space B realises the desire to create an extremely simple lamp in terms of expression. The simple and current design is given a particular twist of pleasant lighting through three different settings for temperature and brightness. An illuminating surprise element which sets new standards for innovative lighting and contributes great functional value. The sculptural floor lamp can be tilted to all sides, and if you place it so that it shines its light against the wall, a decoration of light appears on the wall – particularly visual if you place several lights side by side, tilt them in different directions and choose different colour temperatures. For example, use the warm colour temperature and place the lamp nearby
