AIRLESS COLD PAINT APPLICATION, 1 COLOUR

The Line Striper III is a small hand-guided machine for airless cold paint application. The Line Striper III is equipped with 1 airless spray gun and can apply 1 line in one colour.

The Line Striper III is part of the range of small hand-guided machines, Borum powered by Titan, which is the versatile choice for areas with a limited line marking range. Perfectly suited for line marking on parking lots, outdoor public areas, industrial and exhibition areas, zebra crossings, service stations, airports, and much more.

AIRLESS SPRAY GUN

The Line Striper III will be delivered with a RX-80 Airless gun with a standard tip size of 0,482 mm with which you can apply a max.line width of 30 cm.

Max. size of tip = 0,686 mm for 1 gun.
Various tip sizes available.

Continuously stroking system eliminates deadband delivering consistent lines.

No piston or packings to wear or replace.
Pulsation damper to avoid pulsation.

Lifetime warranty on fluid pump. Proven Technology with a 50-year history of pumping paint.

SWINGBACK FOR EASY HANDLING

The operator handle is positioned at a 65° angle in order to make the machine easier to maneuver. This makes handling the machine easier and less tiring.

ADDITIONAL EQUIPMENT

The additional equipment can be mounted on the machine according to your requirements. They are not necessary for the running of the machine but add to the comfort of the machine driver or to the functionality of the machine.

SmartArm w/elevator lift
For Easy transportation and Storage.
Pivots up for Transportation & Storage and pivots down for Spraying.
Locks In At Any Angle For Curb Striping
Makes it possible to store 2 machines of this size (side by side) in most trailers.

HandiBead Bead Dispenser
Apply glass beads with consistency and accuracy. Eliminates hand tossing glass beads on stop bar or cross-walk applications. The adjustable diffuser can disperse material up to 38 cm wide.

Windguard Spray shield
Spray shield protects spray pattern from wind, minimizing overspray.
Adjustable for easy "on the fly" line width changes – 10, 15 or 20 cm and is easily removed from the sprayer. Attaches to any Titan PowrLiner and most competitive models. Light-weight – only 2,5 kg.

LineSite Laser Pointer
Great for start/stops, curb striping, executing perfectly straight lines and training new employees. High-intensity green laser is easy to see in daylight.

LazyLiner Elite or PRO
Gas Engine with pull or electric start. Speed: up to 19 km/h. Multi-position seat (forward/back, side to side). Height adjustable foot pedals. Attachable tray system as an option for carrying around additional items.

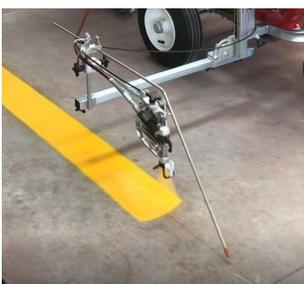

Various tip sizes available

Glass Bead Dispensing Systems
Includes hopper, hose and dispenser. 1 or 2 gun kits available.

SureTrak Floating Gun Kit
Ensure even application with the SureTrak™ Floating Gun Kit.

Mechanical pointer
